

Amphasys AG

Reinventing Single Cell Analysis

We are a highly innovative and internationally active high-tech company, specialized in pollen quality analysis for the seed industry. We provide technology and services based on our patented microchip technology. For the further market development we are looking for a

Plant Biologist / Agronomist for Sales and Customer Consulting

with experience in agronomy or plant sciences. In this important and versatile function, you will take over responsibility for customer-focused support and quality assurance. Your main tasks will include:

- Writing application notes, manuals or marketing support documents
- Pre- and after-sales support including technical or scientific sales, testing of Amphasys products and methods, remote application support and troubleshooting, on-site installations of instruments and preventive maintenance
- Hands-on consulting and on-site training of customers, from pollen collection and storage to sample preparation and analysis
- Interact closely with the sales and the R&D teams to constantly improve products and services

You have a service-oriented personality and a flair to deal with technical instruments. You are willing to travel. Your self-motivation and drive help you to work efficiently and reliably on a high quality level. We expect the following qualifications for this position:

- Master level in natural sciences, preferably in agronomy or plant biology
- Experience with plant breeding and seed production, excellent understanding of cell biology, ideally also of pollen
- Entrepreneurial spirit, communicative and customer-oriented personality with a natural affinity to support, training and project collaboration
- Excellent skills in English and preferably Spanish. German, French, Chinese and other languages are of major advantage.

What we offer:

- A versatile work environment in a young, emerging company with an enthralling technological background
- An interdisciplinary and exciting working atmosphere, close to the management, with the potential for professional development
- A modern workplace at Technopark Lucerne with great infrastructure and easy accessibility

Are you interested and committed to play a crucial role for the success of Amphasys? Then we are looking forward to receiving your detailed application including picture which you please send by e-mail to marco.diberardino@amphasys.com.
